FYI.

Don / Gary,

Please let all the stakeholders know of the construction activities.

Subject: TCRA Enhancement Construction Schedule - SJRWP Site

Valmichael – In regards to the construction schedule for the San Jacinto TCRA enhancement, we plan to start hauling rock this Friday and expect to complete the construction near the end of the month or in early February. This schedule is dependent on having favorable weather and tide conditions for the construction. We will provide updates to you in daily construction reports. We also plan to perform the final inspection consistent with the OMM plan and procedures immediately following the construction activities.

Please don't hesitate to contact David Keith or me if you have any concerns, or if you would like to coordinate on participation in the construction oversight by EPA during the construction activities.

Regards,
John P. Laplante, PE
